

## Motion on board fees under eleven euro

*Amsterdam, 2nd of October 2019*

The members of Studievereniging Machiavelli, gathered in the General Assembly of October 2nd 2019,

decide,

ascertaining that,

- board members are expected to attend all Machiavelli activities;
- a Machiavelli board year has become nearly full time;
- many activities/events have a certain entrance fee;

considering that,

- the board has the final responsibility for the organisation of events/activities;
- the full time character of a board year makes it hard, even nearly impossible to work alongside your board year;
- a board year has a large financial impact;

arguing that,

- it is somewhat ungrateful to have to pay for every event/activity organized by yourself;
- lowering entrance fees for board members is a fair reward for their hard work;
- lowering the total amount of fees helps making the Machiavelli board year even more attractive;

to free the board of Studievereniging Machiavelli from paying entrance fees lower than eleven euro, for its own activities. In the previous academic year (2018-2019) this would have meant a freeward of sixtythree euro per person. We believe this is a fair amount to reward the board for its efforts, and is a way to meet the board members in their financial needs.

and returns to the order of the day.
